

ATTENTION UNIFOR MEMBERS

Canada's industries are facing transformations.

Working people are on the front lines of many changes to come as this country determines how to address the challenges posed by climate change.

Our union has been calling for a vision that transforms all of Canada's industries while leaving no worker behind. Achieving our vision for economic development and good jobs that puts working people at the centre will not come easy: it will require bold action from governments at all levels, as well as employers.

**Have Your Say in
Unifor's Next Steps** ↘

This survey takes five minutes to complete. Participants have the chance to win one of three Apple gift cards worth \$500.

The survey will be accessible online until November 10, 2023.

unifor

The survey is being coordinated by Unifor's National Climate Task Force, which aims to bring members into the conversation on climate and sustainable jobs. For any questions, or if you and your local union are interested in getting in touch with the Task Force, you can reach them at **NCTF@unifor.org**.
